

EDUCATION

Degree	Specialization	Institute	Year	CGPA
B.Tech	Computer Science & Engineering - Artificial Intelligence & Machine Learning	VVITU	2022–Present	8.9/10
Intermediate	Physics, Chemistry, & Mathematics	Bhashyam College	2022	9.63/10
SSC	-	Bhashyam School	2020	10.0/10

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** [Oracle University] Aug 2025
- **Java Full Stack Developer** [EduSkills] Sep 2025

OPEN SOURCE CONTRIBUTION

- **WikiTech Contributor** [Open Source Project by Wikimedia Foundation] July 2024 – Sep 2025
<https://github.com/indictechcom/community-insights-dashboard-tooling>
 - Contributed to an open-source **Data Analytics initiative** focused on building a **Community Insights Dashboard** for Wikimedia.
 - Developed analytical dashboards in **Python** using **Pandas**, **Matplotlib**, and **Seaborn** for aggregating and visualizing Wikimedia community data to visualize key metrics
 - Collaborated with global open-source contributors via **GitHub** — managing pull requests, issues, and code reviews.

PROJECTS

- **E-commerce Website** [GitHub](#)
 - **Objective:** To design and implement a scalable full-stack E-commerce platform with secure online payments.
 - **Role:** Individual developer responsible for full-stack development, deployment, and integration.
 - **Tech Stack:** React, Spring Boot, MySQL, JWT, Razorpay.
 - **Work:** Developed RESTful APIs for authentication, cart, and order management. Integrated Razorpay for payments and configured seller email notifications.
- **Real-Time Chat Application** [GitHub](#)
 - **Objective:** To develop a real-time chat system using WebSockets in Spring Boot.
 - **Role:** Individual developer responsible for backend and real-time messaging integration.
 - **Tech Stack:** Spring Boot, WebSocket, STOMP, SockJS, React.
 - **Work:** Implemented WebSocket communication with STOMP protocol, managed message broadcasting, and ensured reliable live chat between users.
- **Freelancing Platform Website (Team Project)** [GitHub](#)
 - **Objective:** To build a platform connecting freelancers and clients for gig posting and collaboration.
 - **Role:** Frontend developer – responsible for UI design and API integration.
 - **Tech Stack:** MERN (MongoDB, Express.js, React.js, Node.js), JWT.
 - **Work:** Developed responsive dashboards, implemented forms for gig posting, and integrated REST APIs with React.

TECHNICAL SKILLS

- **Languages:** Python, Java, C, MySQL
- **Web Technologies:** HTML5, CSS3, JavaScript, React.js, Spring Boot
- **Tools:** GitHub, Postman, Jupyter Notebook, VS Code, IntelliJ IDEA
- **Concepts:** REST APIs, Microservices, JWT Authentication, Data Visualization
